BRG To Lease Space In New Development

Boston Residential Group (BRG), developer of 285 Columbus Lofts, has retained The Wilder Companies to lease 10,000 square feet of retail/restaurant space located on the first level of this luxury condominium development near Boston's Copley Square. The creative use of the first floor space to serve as a luxury amenity for 285 Columbus Lofts residents and Boston's Back Bay and South End communities is the second phase of BRG's redevelopment plan for the eight-story building. Formerly Boston's Red Cross Headquarters, 285 Columbus Lofts is being converted into 63 luxury loft-style one bedroom and two-plus bedroom condominiums.
